

ABDUL REHMAN BANDAY

Mern Stack Developer | Software Engineering Student

+92 333 191 4288 | rehmanbanday5@gmail.com | linkedin.com/in/abdulrehmanbanday
github.com/rehmanbanday5 | [Portfolio](#) | Rawalpindi, Punjab, Pakistan

PROFESSIONAL SUMMARY

Motivated Software Engineering student at SZABIST university Islamabad with a strong passion for MERN stack development and building responsive, user-friendly web applications. Proficient in HTML, CSS, JavaScript, Bootstrap, React, MongoDB, Express.js, and Node.js, with hands-on experience delivering functional web applications. Additionally brings 3 years of practical e-commerce experience managing a UK-based Shopify business with a US market. Eager to apply academic knowledge and technical skills in real-world projects and contribute meaningfully through internships and entry-level roles.

EXPERIENCE

Frontend Developer Fellow | Nerd Flow (via Preplify Launchpad Fellowship)

March 2026 – June 2026 · Rawalpindi, Pakistan · On-site

- Completed Preplify Launchpad Fellowship, a competitive cohort-based front-end development program by Nerd Flow.
- Collaborated with developers to build and deliver frontend projects using React, JavaScript, and CSS, meeting industry standards.
- Demonstrated initiative, consistent learning, and teamwork throughout the 3-month program.
- Awarded Certificate of Fellowship by Nerd Flow, signed by the CEO and Chief Strategy Officer.

Founder & E-Commerce Manager | Self-Owned E-Commerce Business (Shopify)

2021 – 2024 · UK-Based Company · USA Market

- Founded and managed a UK-registered Shopify e-commerce business targeting the US market.
- Handled end-to-end store setup: theme customization, payment gateways, shipping, and app management.
- Conducted product research and hunting to identify high-demand, profitable products for US customers.
- Managed product listings — titles, descriptions, images, pricing, and collections — and ran digital marketing campaigns to drive traffic and conversions.
- Oversaw customer service, order fulfillment, and supplier relationships, gaining strong exposure to cross-border ecommerce operations.

PROJECTS

Noorza Ecommerce Website

Live: noorza-ecommerce-frontend.vercel.app · Tech: React JS, Tailwind CSS, Node JS, Express JS, MongoDB

A modern full-stack e-commerce web application designed for a business, featuring product browsing, shopping cart functionality, user-friendly navigation, and an integrated order placement system.

HDR Sports Ecommerce Website

Live: hdr-sports.vercel.app · Tech: React JS, Tailwind CSS, Node JS, Express JS, MongoDB

A modern full-stack e-commerce web application developed for a cricket equipment business serving local and international customers, featuring product browsing, shopping cart functionality, responsive layouts, and a user-friendly shopping experience.

Snapup Ecommerce Website

Live: snapup-ecommerce-project.vercel.app · Tech: React JS, Redux Toolkit, Sass, DummyJSON API

A modern responsive e-commerce web application allowing users to browse products, search items, view detailed product pages, and manage shopping cart functionality with real-time state updates.

Launch Landing Website

Live: launch-landing-website.vercel.app • Tech: HTML, CSS, Bootstrap

A responsive and modern landing page designed to showcase products and services with a clean UI.

Task Management App

Live: simple-task-application.vercel.app • Tech: HTML, CSS, JavaScript

A responsive task management application allowing users to add, complete, and delete tasks through a clean, intuitive interface built with vanilla JavaScript.

Weather App

Live: rehman-weather-app.vercel.app • Tech: HTML, CSS, JavaScript, REST API

A dynamic weather application that retrieves and displays real-time weather data for any searched city via a third-party API.
